

**DISCLAIMER:** Supreme Cream Scanlations stopped scanning Gosu after the official, English version was made available on [MangaDex.com](http://MangaDex.com). Because the English version is several chapters behind its Japanese counterpart however, we're providing weekly translations to keep fans up to date until it catches up.

Please don't use our scripts to release scanned chapters, we would have done so ourselves if we wanted to see that happen. We're sorry, but we'll have no choice but to stop releasing the translations if that happens.
